						total:

actual measurements	bust	waist	hips	height

Special Instructions:

I verify that my measurements submitted are correct and were taken by a professional. I acknowledge that measurements taken by myself are usually incorrect and lead to poor sizing. I understand that if I am in between sizes, that it is best to order the larger size. I understand that Dornink can make a recommendation on sizing but it is ultimately my decision and responsibility. I understand that these dresses are not custom made to my measurements but made to Dornink's standard sizing and that some alterations should be expected. I understand that Dornink is not responsible for measurements that are submitted incorrectly, any weight fluctuation on my part from the time of the original order or dresses that do not fit due to choosing a smaller size than recommended. Due to the fact that all dresses are made to order, there are no cancellations, changes, credits, exchanges or returns and all sales are final. I have read and understood the above statement.
